The Painter!

On 25th October 1881 a little boy was born in Malaga, Spain. This baby grew up to be one of the 20th century's greatest painters- Pablo Picasso. He showed his truly exceptional talent from a very young age. He learned to draw before he could talk. He hated school and he often refused to go there. In 1891 his father got a job as a drawing teacher at a college, so Pablo went with him to the college. When Pablo was 13, he got his own palette and brushes. People wanted him to become traditional painter but he wanted to shock the public with his strange and powerful pictures. 'Guernica', which he painted in 1937, is one of the masterpieces of modern painting. Picasso created over 6,000 paintings, drawings and sculptures. He died of heart failure during an attack of influenza in 1973.
